New valley station of the Valisera cable car and Revierhotel in St. Gallenkirch

Our collaboration with the valley station of the new Valisera cable car is a prime example of our expertise and efficiency. As the executing consortium, Nägele and Jäger have made a significant contribution to the success of this important infrastructure project. The commissioning of the new railway at the beginning of December 2021 marks a milestone in modern mobility in our region.

Another highlight is the opening of the Revierhotel in July 2022, in which we also played a central role. Thanks to our master builder work in record time, we were able to contribute to the timely completion of this exclusive hotel, creating a new focal point for guests and visitors.
