

Prutz power station

Data and facts

Company	G. Hinteregger & Söhne Baugesellschaft m.b.H.
Type	Power plant construction and plant engineering
Runtime	09.2014 - 08.2018
Principal	ARGE GKI Prutz Ried

[Project report online](#)

www.porr-group.com

Electricity produced underground.

The power house and the underwater channel were formed section by section with large-area form work and then reinforced and concreted. The material obtained during excavation was temporarily deposited on the construction site and reused for backfilling the concrete structures.

Impressions

Image notes

1

Minor intervention in the landscape.

Because of the advantageous approach, the power station harmonises with the existing landscape.
