<b>Principal</b>	Real-Treuhand Projekt- und Bauträger GmbH
------------------	---

[Project report online](#)

# Residing in Grinzing district

Across all departments, the entire project was planned with BIM. Access from the construction site to the complete model made it possible to keep track of the entire BIM design process.

## Impressions

## Image notes

1

Residential complex on Langackergasse, 1190 Vienna

The Langackergasse residential complex consists of two building cubatures which are connected to each other on the ground floor and below ground via the entrance area. Besides eight very spacious flats, the complex includes an underground car park and all auxiliary rooms. The project and the property furthermore impress with their spacious garden and terrace areas, which are partially equipped with jacuzzis and a pool area.
