An innovative eye-catcher for customers and employees

TECE will use the building's ground floor as a showroom for customers as well as a training centre. The upper floor will house internal facilities. A curtained aluminium tube façade and a pillar-less and spacious entrance/exhibition room thereby provide interesting architectural touches.

Impressions

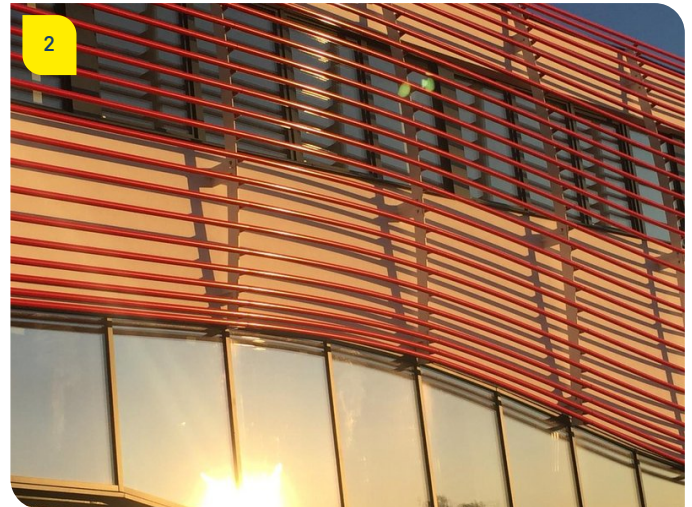

Image notes

1

TECE Austria

Its distinct, curtained aluminium tube façade makes this new building unique.

2

TECE Austria

An attractive space for presentations and training purposes
